

I, as a customer of Tmobile for about 8 years, STRONGLY OPPOSE the merger of ATT & TMobile. This will benefit no one but a handful of very wealthy individuals and executives. Both ATT & DT are making PLENTY of money. ATT doesn't need more "bandwidth". Even if they did.. TOO BAD! ALL the cell companies offer the same services with similar pricing. The ONLY choice we get is GREAT customer service with TMobile.

PLEASE don't take away our choice. Choice is the great benefit to America and americans. This merger, if allowed, will allow two huge companies to do pretty much anything they want and charge anything they want.

Please reject this merger.

Thank you.
